MANTG INSTRUCTOR WORKSHOP

FTP://Fundamentals for Training
Professionals

More than 25 years have passed since the inception of our accredited training programs. While the initial focus was on implementing the systematic approach to training, over the past few years strong focus has been given to both human performance and training to improve performance. Now we're on the cusp of introducing new workers to our workforce.

We're proud to have, for the MANTG Instructor Workshop, the theme of “Fundamentals for Training Professionals.” These fundamentals provide the foundation for engaged, thinking organizations.

Join us in June 2012 in historic Gettysburg, PA to meld yesterday's basics with today's training for the new nuclear workers. Our goal is to meld our unique history with the technology and fundamentals of the future.

June 11th through June 14th, 2012
